

Mayor Wayne Smith
Township of Irvington
Civic Square Municipal Building
Irvington, NJ 07111

Dear Mayor Smith,

I want to thank you and the entire Township of Irvington for your help and hard work in joining us in changing Beverly Turner and her children's lives.

We are happy that we could highlight Irvington with three verbal references, along with shots of police cars and fire trucks with the city logos and the Township name. For us the opportunity to introduce you as Mayor is something which has happened only two other times in our seventy-four builds. It may sound crazy, but the network has many rules and regulations on this, but we felt you were a driving force in making the Turner family's dream come true.

The reason we worked Newark into the show was because of the hundreds of companies and individuals from Newark who gave so much to help this family. They asked if there was a way to say thanks to them, and are happy to find a way to give them a shout-out.

As you know it takes people and companies by the thousands across the entire state to make such miracles happen in 106 hours. Please understand the politics we face in trying to make sure we name as many individuals, cities, trades and sub's as allowed.

Again without you, your team, and the help of hundreds of citizens of Irvington who were the lead in saying yes when others said no, there would be no new house for the Turner's.

Sincerely,

A handwritten signature in black ink, appearing to read 'Conrad L. Ricketts', is written over the word 'Sincerely,'.
